

BVM 921

BVM 921, automatic 270 cup vending machine for hot drinks with up to 18 programmable selections.

Equipped with:
new mixer that are extractable on milk and chocolate to make maintenance operations easier.

Food plastics with patented bactericide additive in the components in contact with water.
This technology is applied in vending exclusively by Bianchi Vending Group.

Cup dispenser adaptable to various diameters.

As well as milk, tea and sugar, also a second blend of coffee or decaffeinated coffee can be available.

Door lock with programmable code.

BVM 921 can also work in master/slave with BVM 636, refrigerated automatic spiral vending machine.

Switching power supply that guarantees total stability of the instant product dose and complete electric safety protections.

Compatible with the most advanced communication protocols.

Flash microprocessor technology programmable in Windows environment for PC or with Palm PC (Visual Smart Programmer).

Predisposition, without any interface, for GPRS module for the remote control of the vending machine.

The coffee group and cup dispenser are produced by Bianchi Vending Group from their own exclusive projects.
