

IRIS

Iris, 180 cup fully automatic tabletop vending machine.

Available in two main models for either excellent coffee from beans or instant coffee.

Compatible with all the most advanced communication protocols.

All coffee from beans models are equipped with Bianchi Vending Group patented espresso group.

Supplied with a grinder-doser that allows a constant dosing and grinding of the coffee, as well as a long life of the grinder blades.

The coffee group and grinder-doser are produced by Bianchi Vending Group from their own exclusive projects.

Payment system panels predisposed for validator, free vend, and contactless key.

Iris can also work in master/slave with Vega 600, refrigerated automatic spiral vending machine.

Flash microprocessor technology programmable in Windows environment.

Bianchi
